

Teachers from France and Netherlands in Careeria

Three European teachers of Communication and Marketing made their Erasmus+ visit to Careeria during one week May 13–17, 2019.

The guests were Cecile Brisset and Wilfried Hubineau from College Phillipine Duchesne of Grenoble (France) and Astrid Steinprinz from Albeda College of Rotterdam (Netherlands). The French teachers Cecile and Wilfried were with us from Monday to Wednesday and Astrid will stay until Friday.

Cecile, Astrid and Wilfried had good discussions with several students, teachers and other staff members. The visitors got acquainted with the Finnish vocational education, Careeria's organization, educational and communication activities and the new HKK building. During company visit to Ensto we met the French student Hugo, who has his internship of communications studies there until July.

The guided cultural visit to Porvoo Old Town was also included in their programme and, as always, it was a success.

Careeria and its personnel were happy to spend time and host our visitors. We expect the partnership between our schools grow and develop further in the coming years.
