

First European teacher to visit our new building

We had a great pleasure of having Valentina Meyer visiting the new building at Hevosenkengänkatu in Porvoo as the first European guest teacher. She is a teacher of German and English languages in our longtime German partner school BBS Rotenburg. Valentina spent one week, January 14–18, 2019 with us on her job-shadowing visit.

During the week, she followed classes and had useful discussions with several people in Careeria. She got good first impressions of Porvoo, Helsinki, our new school building and the Finnish way of life.

Valentina was very happy with her visit and now we have yet another friend in Rotenburg we can meet, when the next delegations from Careeria travel there in March 2019.
